

# **CLARK MASTS™ FT-RM Series**

***Lightweight, telescopic masts with attached tripod for directional or omni-directional headloads***

FT masts are typically field masts derived from the well-known QT mast range.

Easy and quick to deploy, manually or with handpump and supported with three foldable legs which are permanently attached to the mast.

***CLARK MASTS - Pioneer in fast erecting mast systems***

# Technical Details

**Silent, smooth and easy operation**

PHOTO SHOWS SFT-RM4-4/H MAST (MANUALLY EXTENDED)

**The features that have made it such an attractive and useful piece of equipment are :**

1. Aluminium alloy sections
2. Handpump (not for manually extended masts)
3. Field base
4. Leg clamp
5. Air-release screw (not for manually extended masts)
6. Section-clamping screws
7. Guy collar
8. Turning Collar
9. Quick-clamp for headload
