

MILITARY MAST PROGRAM 2010

***CLARK
MASTS™***

TELESCOPIC & SECTIONAL MAST SYSTEMS

Proven design, quality manufacture, in-service reliability = Total Satisfaction

TYPE PU

Used extensively in military applications, since the 1970's PU telescopic masts are tried & tested with thousands already in service.

Standard heights are 5/8/10/12 metres and can support headloads up to 10 kgs.

No additional power source is required.

Accessories available for vehicle/shelter mounting.

TYPE SPUR

These masts have the added advantage of being rotatable and height adjustable for LOS applications.

TYPE FT-RM

Easy to deploy, turnable field masts with attached tripod.

All these masts are lightweight and can be carried by one man.

TYPE SCAM

SCAM 7, 9, 12, 15 & 21 metre air operated telescopic masts provide a strong, reliable lifting device for directional/ non-directional antennas weighing up to 70 kgs (SCAM 7).

These masts can be hard surface deployed or erected semi-permanently with guy ropes.

SCAM 9
Shelter mounted

**ALL CLARK MILITARY MASTS CAN BE :
FIELD MOUNTED, VEHICLE MOUNTED
OR SHELTER MOUNTED**

All Clark Masts feature : - High quality materials
- Military finishes
- Spare parts supply guaranteed for 20 years

TYPE 73 & NEW SERIES 80 & SERIES 90

Type 73, Series 80 & 90 are tubular mast systems, extended by a mechanical hoist and can be extended to any height with complete safety. These systems feature a mechanical guy controller which tensions the guys as the mast extends enabling the mast to be erected in high winds.

HEADLOADS :

TYPE 73 :
50 to 75 kgs.

SERIES 80 :
100 to 125 kgs.

SERIES 90 :
100 to 300 kgs.

SCAM 7 - Vehicle mounted

MOUNTINGS & ACCESSORIES

Clark Masts military range are normally supplied in field kit form to a standard specification.

A wide range of accessories for shelter, vehicle and specialist mounting are available.

Please ask for further details !

SCAM 12 - Shelter mounted

Trailer mounted mast
Extended heights up
to 30 metres
